SUBJECT: OCONEE NUCLEAR STATION, UNITS 1, 2, AND 3, REQUEST FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE REGARDING REACTOR PROTECTIVE SYSTEM/ENGINEERED SAFEGUARDS PROTECTIVE SYSTEM DIGITAL UPGRADE (TAC NOS. MD7999, MD8000 AND MD8001)

Dear Mr. Baxter:

By letter dated April 30, 2009, Duke Energy Carolinas, LLC, submitted an affidavit dated January 30, 2009, executed by Mark J. Burzynski, Manager, Product Licensing, AREVA NP Inc., requesting that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

- AREVA NP document Condition Report 2008-5871

The affidavit stated that the submitted information should be considered exempt from mandatory public disclosure for the following reasons:

- (a) Use of the information by a competitor would permit the competitor to significantly reduce its expenditures, in time or resources, to design, produce, or market a similar product or service.
- (b) The information reveals certain distinguishing aspects of a process, methodology, or component, the exclusive use of which provides a competitive advantage for AREVA NP in product optimization or marketability.
- (c) The information is vital to a competitive advantage held by AREVA NP, would be helpful to competitors of AREVA NP, and would likely cause substantial harm to the competitive position of AREVA NP.

We have reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, have determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the aforementioned document marked as proprietary, will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

D. Baxter

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the document. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the Nuclear Regulatory Commission (NRC). You also should understand that the NRC may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-1345.

Sincerely,

A handwritten signature in black ink that reads "John F. Stang" with a stylized flourish at the end. Below the signature, the word "for" is written in a smaller, simpler font.
