**Subject:** FW: HYD-11, 18 and 19 update requested

Michael,

You may remember the request I made following the meeting we had on COLA revision 1 last week. We need to understand the scope of scenarios being considered in the supplemental discussions we had on these three questions. We assumed that the discussions were focused on the low flow winter scenario that we addressed previously but need confirmation before we can proceed. Please let me know as soon as possible.

Subject HYD-11, 18 and 19 update requested

Joe,

Can you find out from Don Woodland if he received an update from NRC regarding clarification on what they are exactly asking for on HYD-11, 18 and 19? My understanding is that he contacted the NRC (Willingham) late last week but we have not heard any response. We are looking for this response so that Enercon can begin the work on these issues. We need to start work now to meet COLA revision schedule.

Thanks,

Ronnie J. Reynolds
