Docket No. 50-391

WATTS BAR NUCLEAR PLANT (WBN) – UNIT 2 – FINAL SAFETY ANALYSIS REPORT (FSAR), AMENDMENT 94

This letter transmits WBN Unit 2 FSAR Amendment 94 (A94), which reflects changes made since the issuance of Amendment 93 on April 30, 2009 (Reference 1). This Unit 2 amendment incorporates changes resulting from TVA's ongoing design/reverification effort in support of the finalizing of the WBN Unit 2 design basis. This letter also responds to NRC's letter dated June 12, 2009 (Reference 2), requesting TVA to verify the schedule for providing information amending the FSAR. Specifically, NRC requested TVA to verify the schedule dates for submitting amendments on specific Safety Evaluation Report (SER) sections depicted in the enclosure to NRC's June 12 letter. Enclosure 1 contains TVA's updated schedule dates for submitting amendments for the FSAR sections listed in NRC's letter. Enclosure 1 also includes FSAR sections that were initially scheduled to be reverified and submitted in other amendments, but were already completed and ready to be included in this amendment. Those SER sections and corresponding FSAR sections that were scheduled to be incorporated into this amendment but did not achieve "design complete" status have been rescheduled as shown in the enclosure.

Enclosure 2 contains a "Summary Listing" of the location and corresponding Unit 2 FSAR change package numbers associated with the A94 changes. This is a listing of FSAR sections in which TVA has completed its design/reverification review and determined that design-related activities were complete, the verbiage is consistent with the Unit 1 Updated FSAR, as appropriate, and the section is ready for NRC review.

FSAR A94 is contained on the enclosed Optical Storage Media (OSM #1) (Attachment 1). The FSAR contains security-related information identified by the designation "Security-Related Information - Withhold Under 10CFR2.390." TVA hereby requests this information be withheld from public disclosure in accordance with the provisions of 10CFR2.390. A redacted version of the FSAR is contained on OSM #2 (Attachment 2), which is suitable for public disclosure. Enclosure 3 contains a listing of the FSAR pages that have been redacted.

I declare under the penalty of perjury that the foregoing is true and correct. Executed on August 27, 2009.

Sincerely,

Edwin E. Freeman
Cost and Scheduling Manager, Watts Bar Unit 2
