ORGANIZATION RE: Baker Hughes Oilfield Operations, Inc. dba Baker Atlas				
SUBJECT Licensee's use of Ra-226 sources				
SUMMARY (Continue on Page 2) In an email dated Wednesday, June 17 @ 8:49 am from Roberto Torres, he noted: "Tony called a few moments ago from Montana and he inspected a Baker Hughes well logging truck. They had Ra-226 sources but these are not included in the license (most current amendment is dated 2006)." Since I was working on an expedited amendment request from Baker Hughes, Roberto wanted me to "request licensee to add radium-226 to license if quantities are greater than 5 microcuries of Ra-226 per source.				
I confirmed with Tony Gaines that the licensee is not using the Ra-226 sources in our jurisdiction.
