Re: Byproduct Material License No. 45-7548-1
(G63). Supplementary Application

Attn: Mr. Robert E. Brinkman, Isotopes Branch,
Division of Licensing and Regulation

Gentlemen:

Enclosed herewith find supplementary application, in triplicate, requesting that the amount of Strontium 90 be increased from 20mc to 40 mc and that an "equivalent" sealed source model may be used.

Early action on this matter would be greatly appreciated as work with Strontium 90 is now in performance on Government contracts and the additional amount is needed.

Very truly yours,
