SUBJECT: EXTENSION OF TIME FOR REPLY TO REQUEST FOR ADDITIONAL
INFORMATION REGARDING APPLICATION FOR RENEWAL OF SNM-1373
(TAC NO. L32827)

Dear Dr. Crowell:

In response to Dr. Jay Kunze's email to me dated September 2, 2009, requesting an extension of the period of time for Idaho State University (ISU) to reply to the U.S. Nuclear Regulatory Commission's (NRC's) Request for Additional Information (RAI) dated August 4, 2009, the NRC hereby grants an extension to October 5, 2009. The August 4, 2009, RAI specified a reply time of 30 days; however, Dr. Kunze stated that it will be essentially impossible for ISU to prepare a satisfactory response to the many items that are listed in the two enclosures pertaining to SNM-1373 because of certain unanticipated conflicting responsibilities. We will look forward to receiving the RAI replies on or before October 5, 2009.

In accordance with Title 10 *Code of Federal Regulations* 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions regarding this matter, please contact me at (301) 492-3113 or via email to Mary.Adams@nrc.gov.

Sincerely,

/RA/

Mary T. Adams, Senior Project Manager
Fuel Manufacturing Branch
Division of Fuel Cycle Safety
and Safeguards
Office of Nuclear Material Safety
and Safeguards
