Re: Radioactive Materials License Amendment: 25-27027-01

To Whom It May Concern:

Graymont Western US Inc. (Graymont) is requesting this Radioactive Materials License Amendment to change the radiation safety officer (RSO) listed under license number 25-27027-01. Accordingly, please remove Elton Chorney as the RSO and add Allen Holubec as the new RSO. Mr. Holubec is qualified by training and experience as detailed below:

- Mr. Holubec received a bachelor's degree in mining engineering from Montana Tech University in Butte, MT.
- Mr. Holubec has worked with the nuclear gauges at the Indian Creek facility for 9 months.
- Mr. Holubec attended a Radiation Safety Officer Training Class in 2009 conducted by Edd Johnson of Rocky Mountain Health Physics Consultants as documented on the attached Certificate of Completion.
- Mr. Holubec is the Plant Engineer at Graymont's Indian Creek facility and is one of the people responsible for the health and safety of the plant workforce.

Please contact either Jason Ellis (801-716-2621) or myself at (801-716-2627) if you have any questions regarding this radioactive materials license amendment request.

Sincerely,

Scott Mork
Director, W.US Production
