Re: Initial Mandatory Disclosures Pursuant to 10 CFR § 2.336 for Contention SAFETY-1; Southern Nuclear Operating Co. (COL for Vogtle Units 3 and 4), Docket Nos. 52-025-COL and 52-026-COL

Dear Messrs. Sanders and Moulding:

Pursuant to 10 CFR § 2.336 and the agreement between the parties as set forth in the Atomic Safety and Licensing Board's ("ASLB") Order of August 17, 2009 regarding mandatory disclosures ("August 17 Order"), Southern Nuclear Operating Company, Inc. ("Southern Nuclear") is providing the attached initial disclosures regarding Contention SAFETY-1, admitted by the ASLB's Order of March 5, 2009. Attached is a supporting affidavit of Mr. Charles R. Pierce, Southern Nuclear's Vogtle Deployment Licensing Manager.

Southern Nuclear has also attached its Initial Disclosures which provide a description of documents and data compilations in the possession, custody, or control of Southern Nuclear (including its applicable affiliates and contractors) that are relevant to the admitted contention. Southern Nuclear is still in the process of reviewing each document identified in its Initial Disclosures to confirm whether or not they contain proprietary or privileged information. Thus, the Initial Disclosures may be over-inclusive in some respects in that it may include documents that are not discoverable based on 10 CFR § 2.336 or the ASLB's August 17 Order.

Pursuant to 10 CFR § 2.336(a)(1), Southern Nuclear discloses that it has not yet identified witnesses for any hearing on the admitted contention.

Sincerely,

Chad A. Pilcher

State of Alabama)

I, **CHARLES R. PIERCE**, being duly sworn according to law, depose and state the following:

I am the Vogtle Deployment Licensing Manager for Southern Nuclear Operating Company, Inc. ("Southern Nuclear"). My business address is 42 Inverness Center Parkway, Birmingham, Alabama 35242. I am authorized to provide this certification on behalf of Southern Nuclear.

To the best of my knowledge, information and belief, Southern Nuclear's initial disclosures in the above captioned proceeding contain all materials required to be disclosed by 10 C.F.R. § 2.336(a), as modified by the Atomic Safety and Licensing Board's Order of August 17, 2009 (Ruling Regarding Joint Motion on Mandatory Disclosures and Request for Additional Scheduling), that were identified as relevant

through a search of the information and documentation reasonably available to and under the possession, custody, or control (including its applicable affiliates and contractors) of Southern Nuclear. Further, to the best of my knowledge, information and belief, and based on the review of information and documentation currently reasonably available to and under the possession, custody, or control of Southern Nuclear, these initial disclosures are accurate and complete as of this date.

Further, the affiant sayeth not.

Charles R. Pierce

General Comment

whereas public evacuation time estimates should be updated periodically, it is an extra duty for emergency director (shift manager) to define evacuation routes and categorize which section evacuates 1st, 2nd, etc. Let state/counties have control of evacuation implementation. In some low population areas, it would be a waste of emergency director's time, when s/he could be doing something to mitigate event. In some higher population areas, maybe emergency director/shift manager would chose to recommend evacuation priorities. Since state/counties implement evacuation, let them decide what works best for them. They are capable of evacuating for hurricanes and have learned from those events.

Van,

Attached for docketing is a comment letter from Kathy Hougan on the above noted proposed rule (PR 50/52; 74 FR 23253) that I received via the regulations.gov website on September 9, 2009.

Thanks,
Carol
