SUBJECT: CORRECTIONS TO MAYBELL, COLORADO, SITE FINAL COMPLETION
REPORT, PARTS 1 AND 2

Dear Mr. Bosiljevac:

By letter dated September 22, 1999, the U.S. Department of Energy (DOE) submitted corrections to the Maybell, Colorado, Site Final Completion Report (CR), Parts 1 and 2. The corrections to the CR were primarily editorial and grammatical changes to the text which DOE characterized as "minor in nature." Per DOE's request, the staff has reviewed the corrections to the CR, as provided in the replacement pages attached to the September 22, 1999, letter, and agrees that these changes are minor in nature and do not alter the substance of the CR. The staff will update its records of the Maybell Site Final CR with the appropriate replacement pages.

If you have any questions regarding this letter, please contact Rick Weller of my staff at (301) 415-7287.

Sincerely,
