RE: NRC Material License # 37-31287-02

Dear Mr. Lodhi:

Per our conversation, Ingram Engineering Services, Inc. understands that New Jersey will become an Agreement State as of September 30, 2009. IES kindly requests that our Material License both transfer to a New Jersey License as well as remain with the NRC in order for IES to perform services with a Nuclear Density Gauge in the State of New Jersey while still being licensed to carry out said services in other NON-Agreement States as listed on our current NRC Material License.

Thank you for your efforts in contacting IES to inform our Company of this change. Should you require any additional information, kindly contact the undersigned.

Respectfully Submitted,

Chadd W. Ingram, P.E.
