Dear Sir/Madam:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, *et seq.*, and 10 C.F.R. § 9.1, *et seq.*, White & Case LLP requests that the U.S. Nuclear Regulatory Commission ("NRC") make available to it a copy of the following documents. Each of these documents is associated with the Design Certification Application Review for the U.S. Evolutionary Power Reactor ("U.S. EPR"). The NRC docket number for this application is 52-020.

The first document is the Preliminary Safety Evaluation Report ("SER") listed on the U.S. EPR Application Review Schedule (a copy of which is attached to this letter). According to this schedule, the SER was completed on January 28, 2009.

The second set of documents are any and all Requests for Additional Information ("RAI") issued to the applicant (whom we understand to be AREVA U.S. Inc.) between December 1, 2008 and the present, including the RAIs listed on the U.S. EPR Application Review Schedule.

The third set of documents are any and all responses of the applicant to the above-referenced RAIs.

As specified in 10 C.F.R. § 9.40, White & Case LLP is willing to pay search and duplication fees up to \$250.00. To the extent that search and duplication fees will exceed \$250.00, White & Case LLP requests that the NRC provide it with an estimate of those fees.
