Subject: Fermi Site Audit

Hi Everyone,

I received confirmation last week that the applicant can accommodate our Site Audit the first week of November (2-6). Therefore, we will need to "negotiate" which team members will attend the audit and get together a list of important topics to be discussed in addition to what we would like to see on the field visit. Typically, we spend a full day in the field looking at features and following up on the field investigations. We will need to provide the applicant with a list of what we want to see so that they can coordinate the trip and we can put an agenda together. I am sending this to all so please feel free to provide any comments to the group, Tony, or myself.

Tony, I will be in contact with you regarding the overall coordination efforts.
Thanks,
Laurel
