**Subject:** RE: Fermi 3 Traffic Study Conference Call #2

Steve,

Yes, that date and time is agreeable. I would like to have three lines available.

Craig Tylenda  
Detroit Edison  
337 WCB

313.235.3767 (office)  
313.701.5619 (cell)

Hi, Craig. I still need your response regarding the acceptability of the conference call date and time in my email below and on the number of phone lines you will need. Jone Guerin is preparing an agenda with discussion items for the call, and I hope to get that to you soon.

Thanks,

Steve

**Subject:** RE: Fermi 3 Traffic Study Conference Call #2

Craig,

Let's have the call on September 9 at 10:30 AM Eastern Time. I have asked Jone Guerin to provide me with a summary of the discussion items for the call, which I hope to be able to provide to you later this week. However, based on what I have seen on this matter, I can tell you now that you will need your vendor on this call so please arrange for that.

Please let me know how many lines you will need for the call.

Thanks,

Steve

Yes, the 9th will work out just fine.

Steve, please provide the notes/questions that were made about the draft traffic study reports and I will determine if we need to include our vendor on the call.

I am on vacation September 8. The 9th works; around 1pm would be good. Does that work for you Craig?

Subject: Fermi 3 Traffic Study Conference Call #2

Randy,

The staff have reviewed the traffic study-related information in the Emergency Evacuation Plan and that was placed in the Buffalo and DC reading rooms. We would like to have a second traffic study conference call with Detroit Edison and Mannick and Smith (M&S) to discuss questions and comments we have based on that review.

The soonest I can get everyone together for the call on my end would be September 8 or 9. I would prefer to have the call on September 8 if possible. Please let me know if either of these dates is good for you and M&S. It would be best to have the call start no earlier than 10:30 AM Eastern Time. Argonne will provide the bridge line so I will also need to know how many lines you will need.

Thanks,

Steve
