**Subject:** FW: DTE Partial Response for NRC RAI Letters 7, 8 and the Enviro Review

Randy,

The email below discusses the matter that I raised in my voicemail message to you this morning. Please contact me to discuss and decide how DTE will resubmit the information that has not been accepted by the NRC Document Control Desk. I'll be out the rest of today, tomorrow and Thursday, but back in the office on Friday.

Thanks,  
Steve

**Subject:** DTE Partial Response for NRC RAI Letters 7, 8 and the Enviro Review

LaShawn,

The partial DTE Response for NRC RAI Letters 7, 8 and the Environmental Review, dated July 29, 2009 was not initially accepted by the NRC Document Control Desk. This letter contained 7 CDs. Two of the CDs contained pdfs and tiff files that were not acceptable. The other five CDs contained file formats used for data input out files and this information is acceptable, although it cannot be loaded into ADAMs. I have worked with the Document Control Desk personnel to allow partial acceptance of this letter rather than complete rejection.

I have marked up your original cover letter and some of the attachments to denote which portions were accepted. The acceptable parts are for the safety RAIs in NRC letters 7 and 8. The cover letter and the five of the CDs (1-4 and 6) have been accepted. In the next few days, this document will be placed into ADAMs and made publically available. The unacceptable CDs (5 and 7) relate to Environmental RAIs and are the ones for the Packer and Slug Tests Files and the one for the Environmental Report that contained the tiff files. I discussed this with the Environmental Project Manager, Steve Lemont, this morning. Steve will be contacting you or his counterpart at DTE to determine how to get the information he needs.

Please call if you have questions.

Mark Tonacci, P. E.
