Kirk: Please take notes on this call and send them to both Colette and me requesting our comments. Include action items too, as necessary. I will compile our comments and send the final notes to DTE.

Colette: NRC needs to document all of its contacts with Applicants on their applications, to be saved in our hearing file in ADAMS. By the way, did DTE send you any advance information regarding this call, such as an agenda or questions to be discussed? If yes, please send those to me before the call tomorrow.

Thanks,

Steve

Hello everyone!

The dial in information is provided below for the conference call on Tuesday, August 25, at 10:00am Eastern Time for 2 hours. I have reserved 9 nine lines for this call: Argonne/ERI (3 lines); USACE (1 line), DTE Energy/B&V (4 lines), NRC (1 line) -- if that will not be sufficient, please let me know.

Dial-In Number: (888) 390-0971

Code: 65054

Craig,

How many call in lines will be needed for Detroit Edison and Black and Veatch? John Hayse of Argonne will provide the call in number.

Thanks,

Steve

Craig,

I have coordinated with Colette and Argonne to come up with possible dates for this call between now and September 4. This is what works:

- \* July 28 (PM only)
- \* July 29
- \* August 24
- \* August 25
- \* August 28.

On all of the above dates, John Hayse, Argonne's Deputy Team lead, would be standing in for Kirk LaGory.

As for the week of August 10, John Hayse and I would be available but Colette will be in training. However, there is a possibility that she might be available on August 10 and/or 14, but she won't know about that until the week before.

My guess is that you're not ready to do the call this week, leaving only the three days during the week of August 24. I suggest we schedule the call for one of those days, and if Colette does become available on August 10 and/or 14, we might be able to reschedule the call for one of those days.

Please let us know which date and time you want for the call, and about how long you think the call will take. I believe it would be best if the call start time would be between 10:00 AM and 3:00 PM Eastern Time. Argonne will provide the bridge line, so we will need to know how many lines you will need on your end for Detroit Edison and Black and Veatch.

Thanks,

Steve

John,

I'm trying to coordinate with Colette to come up with a date for this call. See Colette's email below and tell me on which of those dates you would be available, and also if Kirk would be available on any of those dates (although I don't think he is). I'm so confused.

Thanks,

Steve.

Hi, Colette. I got your phone message. This conference call is being requested by Detroit Edison to discuss the USACE RAIs, but NRC and Argonne need to be participants. Between Detroit Edison, NRC, Argonne, and the Corps, we have so many conflicts that it been very difficult to come up with a date and time that works for everyone; and with all the back and forth I'm getting confused. If you can provide me once again with your available dates and times the weeks of July 27-31, August 10-14, August 24-28, and August 31-September 4, I will coordinate those with mine and Argonne's and get back to Detroit Edison to try to set a final date.

Thanks,

Steve

All,

We have decided that John Hayse, the Argonne Deputy Team Lead, will stand in for Kirk on this call. John has availability during the weeks of August 10 and 17. I will provide dates and times for John and me for those weeks as soon as I hear back from John.

Thanks,

Steve

Subject: RE: Update Conference Call

Craig,

I hate to tell you this, but Kirk and I are having trouble coming up with

dates that work for both of us. As mentioned before, you and Randy are out

the week of August 3, Kirk is out the week of August 10, and I just

remembered that I am out the week of August 17. I am assuming the call could

take as long as 2 hours, considering my suggestion to Randy earlier today

that we should also discuss the site layout modifications and the resulting

reductions in the wetland impacts.

I am working with Kirk to come up with some dates. There is a very small chance that Kirk might be able to participate sometime during the week of August 10, but even then only within one or more limited time windows. I hate to let things go out this far, but we are also looking at the weeks of August 24 and August 31. Hopefully, we can find something that will work for everybody. This is just a bad time of the year for getting a large group together.

I'll get back to you with some possible dates/times very soon. I apologize for the inconvenience.

Thanks,

Steve Lemont
