Colleen Casey/NRC Fax # 630-515-1078

Dear Colleen:

This letter contains the additional information you have requested on control #318471 for Cass Regional Medical Center's application.

Center Point Medical Center has submitted an amendment change to add Dr. Ira Cox to license number 24-18655-01, but they haven't received their new amendment number to date. Dr. Cox is on license number 24-24660-01, amendment No. 22 and is authorized for the following material and use: 10 CFR 35.100, 35.200, 35.300, 35.500, and 31.11. Cass regional Medical Center with license number 24-20234-02 will only have Dr. Cox authorized for 35.100, 35.200, and 35.300 which is what we are licensed to do. I am faxing a copy of the Lee's Summit license for your review.

This should answer the questions you needed addressed. If you require any further information please contact me at 816-380-5888, ext. 663.

Sincerely,

J. Christopher Lang, MHA, FACHE
Chief Executive Officer

NRC FORM 374

U.S. NUCLEAR REGULATORY COMMISSION

PAGE 1 OF 3 PAGES
Amendment No. 22

MATERIALS LICENSE

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974 (Public Law 93-438), and Title 10, Code of Federal Regulations, Chapter I, Parts 30, 31, 32, 33, 34, 35, 36, 39, 40, and 70, and in reliance on statements and representations heretofore made by the licensee, a license is hereby issued authorizing the licensee to receive, acquire, possess, and transfer byproduct, source, and special nuclear material designated below; to use such material for the purpose(s) and at the place(s) designated below; to deliver or transfer such material to persons authorized to receive it in accordance with the regulations of the applicable Part(s). This license shall be deemed to contain the conditions specified in Section 183 of the Atomic Energy Act of 1954, as amended, and is subject to all applicable rules, regulations, and orders of the Nuclear Regulatory Commission now or hereafter in effect and to any conditions specified below.
