Dave,

Damaris and I reviewed the RAI responses and LA revision and find it to be responsive to the RAIs. We have the following comments for their consideration:

1. In Section 15.3.1.4 Functional Tests, there is no mention of whether compensatory measures will be taken during functional testing.
2. Care should be taken to ensure that sentences are complete. In reading the marked up LA, I believe that some sentence fragments were struck-out unintentionally.
