License Amendment Request

Gentlemen:

Professional Service Industries, Inc. (PSI) requests an amendment to U.S. Nuclear Regulatory Commission (NRC) Materials License No. 12-16941-01 to incorporate the following:

PSI proposes to store portable (moisture/density) gauges at the following location:

1645 Elk Street
Rock Springs, WY

Please see attached a diagram of the above location. (NOTE: the areas adjacent to the [proposed] RAM storage enclosure are unoccupied.) The gauge(s) will be stored in a steel storage enclosure ("job box") with dual locking capability (to satisfy the "two independent physical controls" requirement). The gauge storage enclosure will be secured to the floor of the facility. Please amend Condition 11 of the (current) license accordingly.

There are no other changes to the license at this time.

Your attention to this matter is greatly appreciated. Should you have any questions or if I may be of any assistance, please contact me at PSI's corporate office in Oakbrook Terrace, Illinois at 630/691-1490 (x 320) or via e-mail at john.thornton@psiusa.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'John T. Thornton', is written over a faint, larger version of the same signature.

John T. Thornton
Safety Director/Corporate RSO
