Name of Licensee: Hartford Hospital
Name of Participant(s): Peter Mas, RSO
Telephone No. 860-545-2676
Subject: Amendment request
(NOTE: This will be used as the Documents Title in ADAMS)

I called Peter to discuss the letter dated July 28, 2009 that was received on September 4, 2009. I informed him that it appears an amendment is not necessary because 10 CFR 35.200 allows a licensee to use unsealed byproduct material for imaging and localization studies for research in accordance with an Investigational New Drug (IND) protocol accepted by FDA.

Peter stated that he is preparing amendment requests regarding several other issues, including addition of 2 authorized medical physicists (AMPs), temporary relocation of the high dose rate remote afterloader (HDR) unit, and addition of NARM facilities and sources based on the Connecticut waiver termination. The request to add AMPs is nearly ready to be submitted. I agreed to address it as an additional request under the current mail control number. I reminded Peter that amendment requests should be submitted under signature of senior management.

Action Required: Await receipt of request to add AMP's. Note in cover letter than an amendment is not needed to address the letter dated July 28, 2008.
