Subject: NRC Operator Licensing Retake Written Exam and Initial Operating Licensing Exam Results
Nine Mile Point Nuclear Station, Unit 1
(Cover letter publicly available; enclosures withheld from public.)

Dear Mr. Dean:

The purpose of this letter is to inform you of the individual examination results for your applicants on the initial and retake written examination conducted on September 8, 2009, and the walk-through (overall) and/or simulator operating tests administered August 31, 2009 to September 3, 2009 at your facility. This meets the intent of Section E.1 of ES-501 of NUREG 1021, "Operator Licensing Examination Standards for Power Reactors." This information is considered "proprietary" in accordance with 10 CFR 2.390 and it supplements the information contained in the related examination report for your facility which will be issued shortly.

As indicated in Enclosure 1, the completed ES-501-2, "Power Plant Licensing Examination Results Summary," eight individuals who took the examination passed. However, we will not be issuing licenses for two of the applicants who passed as explained in paragraph D.3.c of Examination Standard (ES) 501 in NUREG-1021, "Operator Licensing Examination Standards for Power Reactors," Revision 9, until you certify in writing that they have acquired all of the training and experience for which they were previously granted waivers.

Enclosure 2 contains the individual results ES-303-1 and 303-2, "Operator License Examination Report," for each of the applicants. Contained therein are the deficiencies noted for each applicant. In accordance with your Systems Approach to Training (SAT) Program, we expect that you will review these results and provide appropriate remedial training for the individual independent of the overall pass status. The applicants have authorized the release of this information to your facility by signing Block 19A of their license applications (i.e., NRC Form 398).

Enclosure 3 is a copy of the licenses.

R. J. Dean
