GLOBAL NUCLEAR FUEL, DOCKET NUMBER 70-1113**

Dear Ms. Price:

This letter refers to our meeting at Global Nuclear Fuel in Wilmington, NC on September 1, 2009, during which we discussed the NRC evaluation of your performance in the five major areas of safety operations, radiological controls, facility support, licensing activities, and safeguards. The meeting afforded you the opportunity to provide feedback to the NRC regarding your perception of the NRC performance review. The meeting was beneficial and provided the NRC with an acceptable level of confidence of your continued safe and secure operation of the site.

The meeting also afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding our inspection program for Global. The list of meeting attendees is located in Enclosure 1, and copies of the NRC and Global presentations are contained in Enclosures 2 and 3, respectively.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
