RE: Materials License 06-21254-01

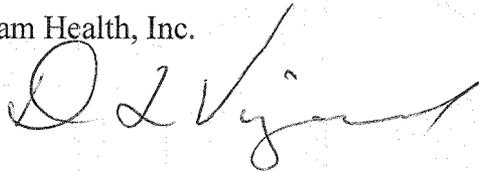

03020106

On behalf of Carestream Molecular Imaging, Carestream Health, Inc., I request an amendment to Materials License 06-21254-01, specifically for a change in location. Note that the current license (amended in August 2007 due to change in ownership), our company name is listed as "Molecular Image Systems". We have modified the name to "Carestream Molecular Imaging" – there has been no change in control.

In October 2009, the laboratory contents (including all radioactive materials and related hardware) of Carestream Molecular Imaging will be moved from 4 Science Park West, New Haven, CT 06411 to 4 Research Drive, Woodbridge, CT 06525 (an adjacent township). Accordingly, all records of usage and surveys shall remain in the current 4 Science Park West, New Haven, CT facility until all steps of decommissioning of that facility are completed and the facility owner is notified.

Excepting for sealed sources of ^{57}Co (currently $< 10 \mu\text{Ci}$), no active material will be moved. All materials used in prior years has decayed in storage, so only empty barrels will be moved to the new location. An as-built of the new facility is currently in preparation.
