

# **CIMARRON CORPORATION**

P.O. BOX 25861 • OKLAHOMA CITY, OKLAHOMA 73125

JOHN C. STAUTER  
VICE PRESIDENT

November 12, 1996

Mr. Ken Kalman  
Project Manager  
Low-Level Waste and Decommissioning Project Branch  
Division of Waste Management  
U. S. Nuclear Regulatory Commission

Ref: Docket No. 70-925  
License No. SNM-928

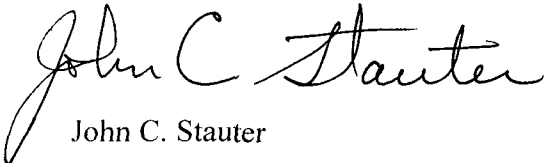

Dear Mr. Kalman:

The purpose of this letter is to request that the two attached letters be included in existing Condition #10 of License SNM-928. This license is currently under review for amendment to reflect the final decommissioning actions underway. During the NRC Region IV audit performed during the week of November 4, 1996, the inspector noted that he could not find any documentation wherein Cimarron Corporation was released from the requirements contained in 10 CFR 70.59 (reports describing the release of SNM in effluents to unrestricted areas). The referenced letters document this action and approval.

Cimarron Corporation notified the NRC that they would be discontinuing filing these reports by letter dated August 22, 1990 due to the fact that Cimarron Corporation was no longer utilizing SNM for processing and fuel fabrication. The NRC notified Cimarron Corporation by letter September 14, 1990 that they had no objection to the discontinuation of the effluent release reports.

Please contact me if there are any additional questions or concerns, or if Cimarron Corporation can be of any further assistance.

Sincerely,

John C. Stauter

Enclosed

Letters dated August 22, 1990 J. C. Stauter to C. E. Norelius  
September 14, 1990 C. E. Norelius to J. C. Stauter

cc: Mr. Louis Carson (NRC Region IV)
