Subject: Comanche Peak RCOL- Section 13.01.02 - 13.01.03 - RAI # 69
Attachments: RAI 2837 (RAI 69).doc

The NRC staff has identified that additional information is needed to continue its review of the combined license application. The NRC staff's request for additional information (RAI) is contained in the attachment. Luminant is requested to inform the NRC staff if a conference call is needed.

The response to this RAI is due within 43 calendar days of September 20, 2009.

Note: If changes are needed to the safety analysis report, the NRC staff requests that the RAI response include the proposed changes.

thanks,

Stephen Monarque

RAI # 69

9/20/2009

Comanche Peak Units 3 and 4
Luminant Generation Company, LLC.
Docket No. 52-034 and 52-035
SRP Section: 13.01.02-13.01.03 - Operating Organization
Application Section: 13.1

QUESTIONS for Operating Licensing and Human Performance Branch (AP1000/EPR Projects) (COLP)

13.01.02-13.01.03-1

NUREG-0800, Standard Review Plan (SRP), Section 13.1.2 – 13.1.3, “Operating Organization,” section I.1.G states that the organizational information provided by the applicant should include a schedule, relative to fuel loading for each unit, for filling all positions. FSAR section 13.1 does not appear to include a schedule, relative to fuel loading for each unit, for filling all positions.

Please identify the location of this information in the Comanche Peak application, or justify its exclusion.

13.01.02-13.01.03-2

Standard Review Plan Section 13.1.2 – 13.1.3, “Operating Organization,” section I.2.C requests the applicant provide the functions, responsibilities, and authorities of the following plant positions or their equivalents:

- vii. technical supervisors
- viii. radiation protection supervisors
- ix. instrumentation and controls maintenance supervisors
- x. equipment maintenance supervisors

FSAR section 13.1 does not appear to include the functions, responsibilities, and authorities for those positions.

Please identify the location of this information in the Comanche Peak application, or justify its exclusion.

13.01.02-13.01.03-3

Standard Review Plan Section 13.1.2 – 13.1.3, “Operating Organization,” section I.2.E states that applicant provide the extent and nature of the participation of the plant operating and technical staff in the initial test program. FSAR section 13.1 does not appear to include the extent and nature of the participation of the plant operating and technical staff in the initial test program.

Please identify the location of this information in the Comanche Peak application, or justify its exclusion.

13.01.02-13.01.03-4

Standard Review Plan Section 13.1.2 - 13.13, "Operating Organization," section I.2.F asks the applicant that if the station contains, or there are plans that it contain, power generating facilities other than those specified in the application, including nonnuclear units, interfaces with the organizations operating the other facilities and to describe any proposed sharing of personnel between the units, a description of their duties, and the proportion of their time that they routinely be assigned to nonnuclear units. FSAR section 13.1 does not appear to include these plans.

Please identify the location of this information in the Comanche Peak application, or justify its exclusion.

13.01.02-13.01.03-5

FSAR Section 13.1.2.1, "Operations Department" states that the Shift Operations Manager is the position designated to meet ANSI N18.1-1971 qualification requirements for Operations Manager. FSAR Section 13.1.2, "Operating Organization" states that the CPNPP operating organization will meet the guidelines of Regulatory Guide (RG) 1.8, "Qualification and Training of Personnel for Nuclear Power Plants" for its operating organization. The current revision of RG 1.8 endorses ANSI / ANS 3.1-1993.

Please explain the reason for this disparity.
