SUBJECT: CHANGE IN INSPECTION RESPONSIBILITIES

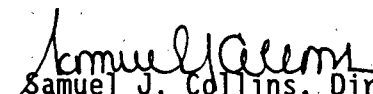

Responsibility for NRC inspection oversight of the Cimarron facility is being transferred from NRC's Region III office to the Region IV office. Region IV's Fuel Cycle and Decommissioning Branch in the Division of Radiation Safety and Safeguards will provide primary inspection oversight of the facility. Charles Cain, Chief, Fuel Cycle and Decommissioning Branch, will be your principal contact and may be reached by telephone at (817) 860-8186.

The files for Docket 70-925 have been transferred to Region IV; therefore, effective immediately, all regional office correspondence should be directed to the Region IV office, to the attention of the Regional Administrator, rather than to the Region III office. Also, any correspondence associated with terminated License SNM-117 should also be sent to Region IV instead of Region III.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter will be placed in the NRC Public Document Room.

Should you have any questions concerning this matter, we will be pleased to discuss them with you.

Sincerely,

Samuel J. Collins, Director
Division of Radiation Safety
and Safeguards
