September 14, 2009

Mr. John Goshen
C/O U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555-0001

Dear Mr. Goshen:

We are requesting a public meeting for the week of October 5, 2009 at the SFST offices with part of the meeting closed to the public. During this section of the meeting Holtec will present proprietary design information about the HI-STORM FW System. This proprietary information, with minor editorial corrections, was already presented to the Staff on April 9, 2009. The draft meeting agenda for the new meeting request, provided in Attachment 1 to this letter, indicates the section of the meeting we would like closed to the public. Attachment 2 contains the proprietary slides that will be presented during this part of the meeting. Attachment 3 contains the affidavit, prepared in accordance with 10 CFR 2.390, requesting that this information again be withheld from the public.

I will send the slides for the non-proprietary sections of the meeting a few days prior to the meeting date so that the Staff may acquaint themselves with them. If you have any questions please feel free to contact me at 856-797-0900 x687.

Sincerely,

Tammy S. Morin,
Licensing Manager
Holtec International
