Subject: Possession limit confirmation
(NOTE: This will be used as the Documents Title in ADAMS)

The current license does not specify a possession limit for the portable gauges. In preparation for the transfer of the license to NJ, I contacted A. Shah to confirm the number of gauges they possess. He confirmed that they have 19 Troxler 3400 Series gauges and 5 Troxler 4640-B gauges. The 3400 Series gauges each have up to 9 mCi of Cs-137 and up to 44 mCi of Am-241. The 4640-B gauge has up to 9 mCi of Cs-137. They do not currently possess any of the 3242 gauges that contain Cf-252, however, they may in the future, so they requested that we give them a possession limit for two gauges. To cover any additional purchases of the 3400 Series gauges, Mr. Shah requested that we add up enough activity to cover 5 additional gauges.
