Docket No. 52-021

**SRP Section: 16.4.9 – Containment Systems
Technical Specifications Branch**

[Open Item 16-2.4-50] This question is related to RAI 16-2.4.50.

In RAI 6.2.4-50, the applicant was asked to clarify a design feature of the low volume containment purge valve which appears to be in conflict with requirements specified in SR 3.6.3.2. The response to this RAI has not been received from MHI. This is an open item (OI 6.2.4-50).
