

NUCLEAR ENERGY INSTITUTE

**Russell J. Bell**  
DIRECTOR  
NEW PLANT LICENSING  
NUCLEAR GENERATION DIVISION

September 28, 2009

Mr. Glenn Tracy  
Director, Division of Construction Inspection and Operational Programs  
Office of New Reactors  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

**Subject:** Submittal of NEI 08-02, *Corrective Action Processes for New Nuclear Power Plants During Construction*, Revision 2, September 2009

**Project Number: 689**

The enclosure provides NEI 08-02, *Corrective Action Processes for New Nuclear Power Plants During Construction*, Revision 2, for NRC review and endorsement. We have re-titled the document and made other changes to address NRC comments in an NRC letter dated July 8, 2009. If needed, we would be pleased to meet with the staff to answer any questions and facilitate the endorsement process.

Once all issues are resolved, we understand the staff will initiate the process of endorsing NEI 08-01 in a regulatory guide. When that occurs, we request that the NRC provide a letter to NEI as a timely indicator for applicants that the endorsement process has begun.

Please find enclosed a clean version and a version that highlights the changes made based on the staff's recent comments.

Mr. Glenn Tracy
