SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE

Dear Dr. Kliman:

In letter dated July 21, 2009, you contacted the U.S. Nuclear Regulatory Commission and indicated that you wished to terminate your NRC radioactive material license No. 13-26260-01. In your letter, you indicated that your two facilities would be transferred to St. Francis Hospital & Health Center, NRC License No. 13-02128-03. Therefore, this termination is being issued concurrent with the addition of your facilities to St. Francis Hospital & Health Center, NRC License No. 13-02128-03 in accordance with your request and at the request of St. Francis Hospital & Health Center.

Based on this conclusion, no closeout survey is required and no remediation or actions with respect to NRC regulated material is required. Your NRC license number 13-26260-01 is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

If you have any questions, please call me at (630) 829-9873.
