SUBJECT: Verification of Information on Containment Accident Pressure Used for Pump Net Positive Suction Head

REFERENCE: Letter, Stacey L. Rosenberg (NRC) to Doug Coleman (BWROG), "Verification of Information on Containment Accident Pressure Used for Pump Net Positive Suction Head," July 7, 2009

On July 7, 2009, NRC requested BWROG review and update of a table identifying the magnitude and duration of Containment Accident Pressure (CAP) used for plants with Mark I containments. All utilities with plants listed in the NRC table reviewed the table and either confirmed the stated information or provided revisions. This email and attached revised table are provided per your request in the referenced letter.

Should you have additional questions, please contact Fred Emerson (BWROG Project Manager) at 910-819-5615.

Respectfully,

Douglas W. Coleman, Chairman
BWR Owners' Group
