RE: Requested amendment to NRC License #06-21254-01

03020106

Confirming our telephone conversation, I verified our company name as Carestream Molecular Imaging (a name change from Molecular Imaging Systems). Further, you requested a description of that portion of the new facility that will contain (or will be designated for the use of) radioactive materials. Such a description follows:

The exact bench, hood, refrigerator/freezer, and waste storage that will be designated/signed for radioisotope usage is not as yet settled, but will be within the laboratory space designated as Room 221 on the 2<sup>nd</sup> floor of 4 Research Drive, Woodbridge, CT 06525. Further, the facility provided will be equivalent to that provided in the vacated facility.

As an added note, we have been assured that telephone numbers will be unchanged.

Thank you for acknowledging my amendment request.
