Kenneth P. Tarr, D.O.  
Radiation Safety Officer  
Lapeer Regional Medical Center  
1375 North Main Street  
Lapeer, MI 48446

Dear Dr. Tarr:

Enclosed is Amendment No. 40 to your NRC Material License No. 21-11553-01 in accordance with your request. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note, in your letter dated August 13, 2009, you requested adding Theragenics Corporation, TheraSeed®, Model 200 to Item 17c, however, there is no Item 17c listed in your NRC license. The Theragenics Corporation, TheraSeed®, Model 200 sealed source is authorized in the Sealed Source and Device Registry as a brachytherapy sealed source, so it was added as a sealed source to Item 7.D., to be used for manual brachytherapy permitted by 10 CFR 35.400.

Also note, John Robin Rice, Ph.D. has already been removed as the Assistant Radiation Safety Officer by Amendment 38 issued on January 13, 2005.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions.

Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

Sincerely,

A handwritten signature in black ink, reading "William P. Reichhold". The signature is written in a cursive style with a large, prominent initial "W".
