Dear Mr. McGuire:

Enclosed is a corrected copy of Amendment No. 07 in follow-up to a telephone conversation between Bill Snell of our office and Mr. Thomas Huston of your staff on August 4, 2009. It has come to our attention that your NRC License No. 03-23853-01VA contained an error in license condition 19.D. Specifically, license condition 19.D. was revised to remove reference to your e-mail dated March 4, 2009, and Condition 19.E. was added to incorporate your August 4, 2009, facsimile which transmitted the information contained in the March 4 e-mail. This action was taken because referencing e-mails in License Conditions is not considered an acceptable NRC licensing policy at this time.

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with 10 CFR 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>. A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
