DOCKETED
USNRC
October 1, 2009 (4:30pm)
OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Our company is extremely concerned about the proposed rule changes you sent out on August 5, 2009. Forcing us to switch from a General License to a Specific License would cause dramatic cost increases due to the additional training and annual fees. In today's business climate, we cannot afford to take on increased costs in either of these areas. Our business is heavily related to Automotive, Appliances and Building industries so you can only imagine how far off our current business levels are compared to years past. We are trying to cut costs in all areas just to stay afloat, any increases just hampers our company and makes it that much harder to succeed.

We ask that you reconsider these proposed changes and allow our company to remain Generally Licensed.

Regards,

Scott Pagley

Plant Engineer
