Kerr-McGee Oil Industries, Inc.
Kerr-McGee Building
Oklahoma City, Oklahoma 73102

Attention: Mr. Harold Lambertus
General Manager
Nuclear Products Department

Gentlemen:

Enclosed is AEC Special Nuclear Material License No. SNM-928, as amended in its entirety.

Please note that the license authorizes your proposed activities in Areas A, B and C, including storage and shipping, but does not authorize as yet, your proposed activities in Areas D and F. Please note also that the license does not authorize the initiation of operations and/or activities in Areas A, B and C, which are fundamentally different than those described in your application or changes in administrative procedures and job qualifications, etc., without having to obtain a license amendment. However, the license does authorize you to make certain changes, such as process layout, equipment modifications and changes, etc., without obtaining a license amendment provided that such changes are made in accordance with the nuclear safety criteria and administrative procedures specified in your license application.

As noted above, we have approved, under License SNM-928, your presently authorized shipping procedures at Cushing. As you know, the Commission is presently considering changes in its regulation 10 CFR 71. At such time as these changes may become effective, it may be necessary for you to re-evaluate your currently approved shipping methods.

Your request for withholding Drawings Nos. NPD-222 (Rev. 1, 2, 3, 4, 5, and 6), NPD-2-301 (Rev. 1), NPD-182, NPD-2-801 and NPD-2-802 from public

disclosure pursuant to Section 2.790(b), 10 CFR 2, is still under review. We will inform you of our determination in this matter in the near future.

If you should have any questions concerning your license or any of the above, please contact us.

Very truly yours,

Donald A. Nussbaumer, Chief
Source and Special Nuclear Materials Branch
Division of Materials Licensing
