Subject: Supplemental Phase Ib Cultural Resources Investigation, Calvert Cliffs Nuclear  
Power Plant, Calvert County, Maryland

Dear Ms. Cole:

Enclosed please find a bound copy of the letter report, *Second Supplemental Phase Ib Cultural Resources Investigation, Calvert Cliffs Nuclear Power Plant, Calvert County, Maryland* for your review and comment. After submittal of GAI's *Phase I and II Draft Technical Report* in September 2008, additional acreage associated with potential forest mitigation and other potential disturbances within the LOD related to the Calvert Cliffs Unit 3 project were identified by UniStar. A Phase Ia investigation was conducted of these areas and, with concurrence by Ms. Dixie Henry, approximately 21 acres were determined to have a moderate to high archaeological potential. The enclosed report details the Phase Ib investigation conducted on these supplemental areas.

Please do not hesitate to contact me at 410-470-5524 if you have any questions concerning the attached report.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Lutchenkov", with a long horizontal line extending to the right.

Dimitri Lutchenkov
