SUMMARY

We have reviewed your license termination requests received on July 16, 2009, and find that we need additional information as follows:

1. All licensed materials (two Troxler Model 3430's) have been transferred to another licensee. According to your license and NRC inspection conducted in 04/2006, you were also in possession of a Troxler Model 3241-C portable gauge. Please provide evidence of final disposition of this gauge, including evidence that recipient is authorized to receive licensed byproduct material and confirmation of receipt.
2. Also, please provide the most current leak tests for your transferred sealed sources.

We will be unable to continue processing your request until we receive this information. In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically in the NRC Public Document Room or from the Publicly Available Record (PARS) component of NRC's document system (ADAMS) accessible from the NRC Website at <http://www.nrc.gov/reading-rem/adams.html>.

ACTION REQUIRED

Please submit a written response within 10-days or contact me to arrange an alternate response date. Be sure to reference control number 318345 to facilitate correct processing of your response.

If we do not receive a written response within 10-days, please note that we may void this request in order to enable you to prepare a quality response without time constraints. This would be done without prejudice to the resubmission of your request at a later date. Upon receipt of your response we will resume our review. Address your written response to my attention at the above address.

Please note that a "Void" is an administrative procedure that puts your amendment request "On Hold" (takes it out of our active casework database) until you reactivate it via submission of a written response.

Upon receipt of your response we will resume our review.

PLEASE DIRECT ANY QUESTIONS YOU MAY HAVE TO ME AT (630) 829-9892.
