With regards to FSME-09-066, the state of Iowa would like to see the compatibility of 10 CFR 31.5 changed from "B" to "C". Additionally, Iowa does not believe in a GL program. We feel that regardless of the threshold set, all material falling within said threshold should be specifically licensed. Likewise, if GL devices do end up on a SL, they should be limited in aggregate, not individually.
Thank you for the opportunity to comment.
