All,
Please look at the GAO reports regarding energy and consider it in your analysis for Calvert, if applicable.
Thanks

FYI - Laura, we may want our staff to take a look at this (see the link to the report below) to determine if it has any impact on the EIS. They should at least be aware of it even if the GAO failed to contact the NRC or identify its nuclear "expert."

FYI: I have not read this, only skimmed it. In the introduction it says, " We focused our evaluation on thermoelectric power plants, such as nuclear, coal, and certain natural gas plants."
