Ladies and Gentlemen:

In the referenced Teleconference Summary (Reference 1), the NRC requested revisions to previously submitted attachments 2.4.1-3A, 2.4.1-3D and 4.3.1-1A from PEF's supplemental response letter (Reference 2). These files have been updated to reflect the most recent field wetland delineation for the LNP site property. The field wetland delineation has not been completed for the entire south property and therefore the FLUCCS codes are used to identify wetland areas for this property. In addition, the native files (MXDs and associate shapefiles) were requested for these figures and are included on the attached discs.

The information is provided in the attached two discs (one noted as Native Files and one noted as PDF Files). The native files also contain the graphics data associated with each "mxd" file. The table below lists the files being submitted:

Filename	Description	Disc
LNP_Habitats.pdf	FLUCCS cover types and project features used to prepare Figure 4.3.1-1 previously supplied as PEF Letter NPD-NRC-2009-107 Attachment 4.3.1-1A	PDF Files
LNP_Wellfields.pdf	Operational pumping water drawdown and a wetlands map with SAS incremental drawdown impacts previously supplied as PEF Letter NPD-NRC-2009-107 Attachment 2.4.1-3D	PDF Files
LNP_Wetlands.pdf	Wetlands and project features, previously supplied as PEF Letter NPD-NRC-2009-107 Attachment 2.4.1-3A	PDF Files

The supplemental information contained in the attached native files disc is provided to support the NRC's review of the LNP Combined License Application, but does not comply with the requirements for electronic submission. The NRC staff requested the files be submitted in their native formats for utilization by their GIS experts and graphic specialists.

A pre-flight report is enclosed for the files provided in the PDF Files disc.

If you have any further questions, or need additional information, please contact Bob Kitchen at (919) 546-6992, or me at (727) 820-4481.

I declare under penalty of perjury that the foregoing is true and correct.

PREFLIGHT REPORT: LNP ER SUPPLEMENTAL INFORMATION - REQUESTED FIGURES

This table serves as a pre-flight report for the pdf files provided as Supplemental Information per NPD-NRC-2009-214 in support of the LNP COLA. The following files were checked for items related to pre-flight/electronic submittal acceptance. The results of the review are shown below. For files that do not pass pre-flight, the reason for the error is provided, however all files within this submittal are deemed compliant with the NRC electronic submittal checklist as noted below.
