Subject: Response to U.S. EPR Design Certification Application RAI No. 262, FSAR Ch 19, Supplement 3

Getachew,

The proprietary and non-proprietary versions of the response to RAI No. 262, Supplement 3 are submitted via AREVA NP Inc. letter, "Response to U.S. EPR Design Certification Application RAI No. 262, Supplement 3" NRC 09:110, dated October 28, 2009. The enclosure to that letter provides technically correct and complete responses to the remaining 3 questions in RAI No. 262. An affidavit to support withholding of information from public disclosure, per 10CFR2.390(b), is provided as an enclosure to that letter.

The following table indicates the respective pages in the response document, "RAI 262 Supplement 3 Response US EPR DC.pdf" that contain AREVA NP's response to the subject questions.

Question #	Start Page	End Page
RAI 262 — 19-319	2	6
RAI 262 — 19-320	7	9
RAI 262 — 19-322 (Parts a, b, c)	10	12

This concludes the formal AREVA NP response to RAI 262, and there are no questions from this RAI for which AREVA NP has not provided responses.

Sincerely,

(Russ Wells on behalf of)

Attached please find the subject requests for additional information (RAI). A draft of the RAI was provided to you on July 17, 2009, and discussed with your staff on July 30, 2009. No changes were made to the draft RAI questions as a result of that discussion. The schedule we have established for review of your application assumes technically correct and complete responses within 30 days of receipt of RAIs. For any RAIs that cannot be answered within 30 days, it is expected that a date for receipt of this information will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the published schedule.
