TELEPHONE CONVERSATION RECORD

Date: October 30, 2009
Time: 08:45

Mail Control or Report No(s): N/A License No(s): 47-23035-01 Docket No(s): 03020199

Name of Licensee: University of West Virginia
Name of Participant(s): Nasser Razmianfar, Radiation Safety Officer
Steven R. Courtemanche, Health Physicist NRC RI
Telephone No. 304-293-1554, 610-337-5075
Subject: Portable Gauge Users.
(NOTE: This will be used as the Documents Title in ADAMS)

I spoke with Mr. Razmianfar about the inspection of the US Dept. of Agriculture and the loaning of a gauge to an individual associated with the University of West Virginia (UWV). Mr. Razmianfar stated that he had an additional talk with Tony Goff about his use of the portable gauge. Mr. Goff indicated that he had used the gauge for two days, once in 2007 and again for two days in 2009. The protocol was for Mr. Goff to sign out the gauge from the USDA and transport it to the place of use. The place of use happened to be another campus of the UWV. The gauge was used for half a day and then stored in Mr. Goff's office for the night. The gauge was then used at the same site it was previously used on the next day. Mr. Goff indicated that he was the only person to use the gauge. Mr. Razmianfar determined that Mr. Goff's room was on-campus, was a private office and that the device lock, case lock and room were secured when Mr. Goff was not present. Mr. Goff is in the process of providing the UWV with a copy of his certificate from Troxler indicating that he has passed a user qualification course. Mr. Goff was questioned about what dosimetry he used while operating the gauge. Mr. Goff stated that he used dosimetry provided by the USDA but it was shared with someone else. He did not remember the name of the individual that was listed on the badges that were provided to him. I requested that the licensee (UWV) fax the letter and a copy of the certificate of training when the letter was finalized and the certificate was provided to the Radiation Safety Office of UWV.
