Ms. Patricia J. Pelke, Chief  
Materials Licensing Branch  
United States Nuclear Regulatory Commission  
Region III  
2443 Warrenville Road, Suite 210  
Lisle, Illinois 60532-4352

Dear Ms. Pelke:

SUBJECT: NRC License Number: 21-05199-02

We are requesting a correction to our license. For Item 6J, Cesium-137 should be corrected to Cobalt-60. We had requested that Item 6J be Cobalt-60 in our amendment request dated February 22, 2007 but had not noted the discrepancy until now. We are in the process of purchasing this source but cannot do so until the license has been corrected.

If you have any questions, please contact me.

Sincerely,

Robert D. Skowronek, Chief  
Radioactive Materials Unit  
Radiological Protection Section  
Waste and Hazardous Materials Division

Ms. Patricia Pelke, Chief  
Materials Licensing Branch  
U.S. Nuclear Regulatory Commission, Region III  
801 Warrenville Road  
Lisle, Illinois 60532-4351

Dear Ms. Pelke:

SUBJECT: NRC License Number: 21-05199-02

We are renewing our current license and requesting an amendment to the license. We would like to install a GC-60 Beam Calibrator from Atlan-Tech, Inc. in the existing, fully-shielded calibration room at 815 Terminal Road, Lansing, Michigan. The GC-60 Calibrator with a 10-curie cesium-137 source is being acquired in response to our need to conduct enhanced portable instrument calibrations, instrument response checks, and dosimeter exposure tests to improve our radiological emergency preparedness activities.

Also, enclosed are final status surveys for our old calibration room, nuclear counting laboratory, and storage bunker.

Our administrative office has moved and our mailing address has changed. Two copies of this letter, NRC Form-313, and all attachments are enclosed.

In summary, we request the following modifications to our license:

1. **Licensee name change to:**  
State of Michigan  
Department of Environmental Quality  
Waste and Hazardous Materials Division
2. **Mailing address change to:**  
Radiological Protection Section  
525 West Allegan Street, P.O. Box 30241  
Lansing, Michigan 48909-7741

6., 7., 8. Add:

6.	7.	8.
Cesium-137	Sealed source (Amersham CDC 711m)	One source not to exceed 11 curies
Cesium-137	Sealed source (Amersham CDC 800)	One source not to exceed 150 millicuries
Cobalt-60	Sealed source	One source not to exceed 2 curies

Ms. Patricia Pelke  
Page 2  
February 22, 2007

9. **Add:** For possession and use in an Atlan-Tech GC-60 Instrument Calibrator.

10. **Modify this condition to read:**

"Licensed material shall be used at the licensee's facility located at 815 Terminal Road, Lansing, Michigan. Licensed material listed in Subitem 6.F. may be used at temporary jobsites throughout the state of Michigan."

If you have any questions, please contact me.

Sincerely,

Robert D. Skowronek, Chief  
Radioactive Materials Unit  
Radiological Protection Section
