Subject: RE: Reminder

We talked about the update they have not yet restarted.

White, Barber and I discussed update for the tritium pipe and concluded sufficient information was being transmitted throughout the agency.

Subject: Reminder

We need an updated PN for the OC restart, presuming they do so over the weekend.

We were supposed to look at an updated PN for the change in the reason they were staying down... not sure if I ever heard back on this aspect....

Thanks.

Jim
