Subject: MRP-169 - Documentation Trail For Resolution of 2 Additional RAIs
Attachments: Request Feedback from NEI by 8/10/09: TR MRP-169 (RAI); RE: Additional Item Regarding the Call: Request Feedback from NEI by 8/10/09: TR MRP-169 (RAI); Topical Report MRP-169; RE: EPRI Call @ 3 pm - please forward your presentation to John Tsao; RE: MRP-169; RE: MRP-169

Good afternoon Eric,

Per our discussion yesterday, MRP-169 is a non-proprietary topical report. EPRI has not identified any proprietary information in the attached emails/attachments. I intend to place the attached emails and attachments in ADAMS as publicly available within 1-2 weeks. I am providing a timeline of the interactions between NEI and EPRI to support resolution of the additional 2 RAIs provided by the NRC staff.

My thanks to John Tsao for providing me with the following timeline. Eric, as we discussed, I will wait for you to cross-reference what I am providing in this email to ensure that I am not missing any emails/attachments. Thank you for your time.

T. Mensah

Timeline (I attached all of the files to this email in the order that they are listed below. Hope this helps):

- 7/31/09: Tanya Mensah transmitted to NEI the NRC's 2 draft RAI questions by email. (attached)
- 9/28/09: The NRC issued the RAI's. These are already in ADAMS and available to the public. ML092370095 (Letter)
- 8/27/09: NEI/EPRI transmitted its draft response to these RAIs via email. (attached)
- 9/3/09: We held a phone call with the industry to discuss its draft response. The staff had concerns regarding the structural factors of the OWOL design.
- 9/30/09: Tanya Mensah transmitted the NRC staff's comments on the industry's draft response (attached). The comments are staff's initial feedback of the industry's draft response to the 2 RAI questions.
- 10/1/09: The NRC held a phone call with the NEI/EPRI. To facilitate the phone call, the industry transmitted EPRI presentation slides regarding structural factors for OWOLs. (attached).
- 10/5/09: The NRC held a phone call with the NEI/EPRI. Also the NEI/EPRI transmitted the results of its revised calculation of structural factors for the OWOL design (attached).
- 10/9/09: Tanya Mensah forwarded the NEI/EPRI the NRC staff's comments on its draft response to the staff's 2 RAI questions. (attached).
