Attachments: MRP-169 comments on 2 RAI response 10-8-09.doc

Good morning Eric,

I have attached the NRC staff's comments on the new calculations that were recently provided. The staff has informed me that they do not need a phone call to discuss the attached comments. If you feel otherwise, please advise and we can coordinate one to discuss any specific issues.

Separately, you and I need to discuss a path forward to capture all of the EPRI draft responses and the NRC staff's informal comments on the docket. There have been a number of drafts and I want to obtain your feedback on the following options before you submit your formal RAI responses:

A. I can include all of the draft responses provided by EPRI, including the NRC staff's draft comments, in ADAMS as publically available. This option would work, so long as there is no proprietary information contained in the draft RAI responses, or the calculations that EPRI has been provided informally.

OR

B. We can discuss a path for EPRI to reflect all of the draft feedback in the formal RAI response.

If you have given even thoughts to this, I am willing to consider them. Perhaps I can call you next week to discuss in further detail.

Thanks and have a good day,

Tanya

Hi Tanya,

I would like to check and see if we need to start the preparation for another tel.con. to discuss the staffs position on the new calculations that were provided?

Regards,
Eric

Thanks Eric. As usual, I will be in meetings most of this afternoon. If you could copy John Tsao on the calculation results, he can ensure that the other technical leads receive it as soon as it arrives via email.

Thanks,

*Tanya M. Mensah, Senior Project Manager

Hi Tanya,

EPRI will be providing the information today. We will be sending you the latest calculation results within the next hour or so.

Regards,
Eric

Good morning Eric,

The NRC staff plan to meet internally on Wednesday, October 7th to discuss the results of the latest calculation results.

They have asked me if EPRI can provide that information today, so that they have a few days to prepare for their internal meeting. I would appreciate your feedback at your earliest convenience.

Thank you for your time,
