Name: Kevin Weinisch
Address:
43 Corporate Drive
Hauppauge, NY, 11788
Organization: KLD Associates, Inc.

General Comment

NUREG/CR-XXXX "Criteria for Development of Evacuation Time Estimate Studies". Section 4.1.3 - Special Facilities - page 24.

Table 4-1 indicates that the vehicle queue length should be provided. Why is this needed? What value does it add to an ETE study?

The final paragraph of this section discusses return trips for buses. Recommend adding another bullet for bus driver rest time. Bus drivers may be in the vehicle for several hours and will likely have to use the restroom and/or have something to eat or drink.
