I reviewed the draft response and provided Ed with verbal comments. The most significant comment was that the draft response appears to be too general in nature.

Please review the inputs. And, to the degree that you can, please provide input (draft) for the specific OC questions. There is a green ticket on this response...looking for June 15. Obviously, we may not be able to factor in the Exelon's root cause by that time. May need to make a supplemental response.
