Tekia and Adrian,

I received an e-mail this morning from Ryuji Iwasaki, the Toshiba Licensing Lead for the STP 3 & 4 ABWR Project, documenting that the questions contained in the referenced RAI did not contain any proprietary information.

If you need any additional information regarding this issue, please call me at either of the numbers listed below.

Regards,

Dick Scheide
STP 3 & 4 Licensing Engineer
Office: 361-972-7336
Cell: 479-970-9026

confirmed with the responsible engineer.

We understood that NRC classified the RAI as Proprietary Information because the RAI was based on NRC Audit for Toshiba Proprietary Information document.

However, actually Q2-12 came from previous RAIs to GEH as Non Proprietary. Q1 and Q13 are also Non Proprietary.
